---

At XO Restaurant, the Tasting Menu of Snacks offers a journey through bold flavors and sophisticated ingredients, each dish meticulously crafted to delight the senses. Starting with **Black Summer Truffle**, this delicacy exudes a rich, earthy aroma that captivates the palate. Its intense, yet refined taste pairs wonderfully with the light, crispy textures that follow in the tasting sequence.

Next up, the **XO Scallop** delivers a burst of oceanic sweetness and umami. The scallop is tender and seared to perfection, balanced with the complex, spicy undertones of XO sauce, adding depth and an exotic twist to each bite. It's a true standout, setting the tone for the rest of the menu.

For those who appreciate a harmonious fusion of flavors, the **Unagi** makes its appearance. The Japanese eel is glazed with a smoky, slightly sweet sauce, beautifully charred to enhance its naturally rich flavor. This dish is comfort food elevated, delivering the perfect mix of texture and taste.

As the tasting menu continues, the **Pork Cheek** offers an unexpected but deeply satisfying bite. Tender, slow-cooked to melt-in-your-mouth perfection, the pork cheek is accompanied by delicate flavors that complement its rich, savory nature. It's a dish that feels indulgent yet refined, capturing the essence of modern culinary technique.

Finally, the **Foie Gras** brings a luxurious finish to the experience. Silky smooth and decadently rich, it's served with a touch of sweetness that creates the perfect balance. Each bite is a delightful contradiction of creamy richness and a subtle, savory contrast that lingers long after.

In essence, XO Restaurant's Tasting Menu of Snacks is a celebration of the finest ingredients, artfully combined to create a multi-sensory experience that's both innovative and satisfying.
