If you ever find yourself craving a burger that's equal parts creative flair and comfort indulgence, **B Boyz The Burger Architect** at 699 Markham Rd Unit 2, Scarborough, ON M1H 1R3, is the kind of place that makes you stop and appreciate what a real burger joint should be. Their **B Boyz The Burger Architect Menu** feels like a playground for burger lovers, full of bold flavors, crispy bites, and comforting sides that make every visit a treat worth savoring.

What strikes you first is how the menu celebrates variety without being overwhelming. The **Nuggets** section is a must-try starting point. The Chicken Dynamite nuggets are an explosion of flavor-crispy outside, juicy inside, with just the right hint of spice to wake up your taste buds. If you like keeping things classic, the Nuggets Only option hits the spot with that golden crunch that pairs perfectly with their house-made dipping sauces. For a more satisfying meal, the Nuggets Combo gives you a complete experience with sides and a drink that round it all off beautifully.

Moving on to the **Tenders**, it's clear B Boyz takes their fried chicken seriously. The Tenders Only (5 pcs) serve as a generous portion of perfectly seasoned chicken strips-crispy, tender, and bursting with flavor. If you prefer something lighter, the Tenders Only (3 pcs) option keeps things simple yet satisfying. For those who like a bit of balance, the Tenders Combo options (available in both 3 and 5 pieces) are the way to go, paired with fries or another favorite side plus a drink. Each bite carries that homemade feel-the kind of crunch and tenderness that only a place that truly loves chicken could deliver.

And then there's the **Make It a Combo** section, which gives you the flexibility to craft your meal just the way you like it. Whether it's the Fries & Drink for a classic touch, the Sweet Potato Fries & Drink for a slightly sweeter and crispier experience, or the Onion Rings & Drink for that deep-fried perfection, you're spoiled for choice. The Poutine & Drink combo deserves a special mention-it's rich, cheesy, and absolutely comforting, especially with those thick-cut fries soaking up the gravy. If you're looking for something a little more indulgent, the Beef Bacon Poutine & Drink is an irresistible twist, combining smoky bacon goodness with melted cheese curds and rich gravy for the ultimate Canadian comfort dish.

The **Wings** section is another highlight of the B Boyz The Burger Architect Menu. Whether you go for the 6 Wings or the 12 Wings platter, you can expect crispy skin and tender meat that pull apart effortlessly. Their 6 Wings Combo is great for a quick meal, especially when paired with one of the signature sides. Each wing is sauced to perfection-whether you prefer spicy, tangy, or sweet, there's something for every craving.

For those who like to go old-school, the **Bone In Chicken** options bring back that nostalgic fried chicken experience. The 2 PC Chicken is perfect for a quick bite, crispy and golden on the outside with that juicy, flavorful meat inside. But if you're dining with friends or just have a hearty appetite, the 8 PC Chicken is a feast you'll remember-perfectly seasoned, deeply satisfying, and ideal for sharing (or not!).

What makes the **B Boyz The Burger Architect Menu** truly stand out is its attention to detail. Every dish feels thoughtfully crafted, from the crispy texture of the fried items to the balance of seasoning that never overpowers. It's comfort food, but elevated-food that's familiar yet surprising in all the right ways. The menu invites you to mix, match, and customize, so every visit can be a new experience. Whether you're stopping by for a quick lunch or gathering with friends over a mountain of wings and poutine, B Boyz delivers not just food, but moments of pure, delicious satisfaction.

In a world where burger spots are plenty, B Boyz The Burger Architect shines for its creativity, consistency, and heart. The next time you're in Scarborough and craving something flavorful, head over to 699 Markham Rd, step inside, and let the menu do the talking-it's comfort food architecture at its finest.
